A SPLENDID OFFER! READ IT! The Courier will be greatly improved during the ensuing year. It will furnish all the local news, natices of meetings, assessments, tax and other sales, markota, etc., otc., giving information that every resident of this county aught to have, and cannot deprive himself of, without being cannot deprive himself of, without being likely to less many times the cost of the paper. The Village, Farm, Town and County Talk on subjects of local interest, will be supplied fully in our columns, hesides much interesting reading. All this can be had at scarcely 4 cents a week, or only \$2 for the entire year!

And Better Still. Almost everybody knows the high value of the Ararican Agriculturist a journal that has just completed its 27th successful year. It is a large, beautiful journal, full of plain, practical, reliable, most useful information, for every man, woman and child. It prints every year 700 to 800 original engravings of labor-saving, labor-helping contrivances, many of thehi home-made; also of animals, plants, con-struction of buildings, etc., etc. The American Agriculturest also constantly publishes exposures of the various humbugs and swindlers that prey upon the people with their artful schemes. These exposures save tens of thousands of doilars to i;s readers every year.
With all its splendid features, and an

ings, etc., the circulation is so largo that it is supplied to subscribers, post-paid, for only \$1.50 cach year. We are happly to announce that we have made urrangements to furnish to eash subscribers. BOTH the Cartine and the American Agriculturiet, for the small sum f only \$2.55 a year, both post-paid, which is but a trific over five cents of week. Who will not smoke one cigar less a week, or save tive cents from some other needless expenditure, if necessary, to constautly supply bimself and family with both of these journals? Remember, only \$2.05 pays for the Courses and the American Agriculturist, both sent post paid

THREE for only \$2.85. THE LATEST INVENTION IN USE-FUL HOUSEHOLD ARTICLES. Within the last few years there Las been expended a great deal of inventive thought and genius upon what may proporly be classed as household articles, the most noted results of which are the production of the sewing machine, the wringer, the washing machine, the earpet sweeper, &c. Almost every week we chronicle the advent of some new invention by which the cares and labors of

housekeepers are lessened, and woman's

work made casier.

The newest thing to challenge our at-

tention and gladden the heart of the housekeeper, is, what is called the Nevelty Brush Holder, Carpet Stretcher and Sweeper, a very simple contrivance designed to proly hold in position any kind of a brush or duster; having an extension handle that enables one to wash or dust windows, walls or ceitings without the nid of a step ladder. That is one of its conveniences, and it is also one of the hest carpet sweepers in the market, holding the brush firmly at an augle. It chans the earliet thoroughly, raises no dust, and does no wear the carpet like the ordinary broom or brush, and will outwear a half dozen brooms. As a hanthe for the scrubbing brush it is the best device ever made, no more kneeling on the floor, no more back aches or sore fingers. As a earpet stretcher it is worth its cost, as a carper of any size can be laid evenly without any of the labor and vexation usually intending such work. It is strong, simply, thoroughly made, cannot get out of order, has no screws, lever or linges, is compact, chean and durable.

It is manufactured by Brown & Co., Cincinnati, the well known mauufacturers of useful household articles, and is sold only by their agents to housekeepers. The real utility of this article will at once be seen by those most interested, and we predict for it a large sale. Every housekeeper in the land will want one.

Any reliable lady or gentleman wishing remunerative employment, would do well to secure the agency for this county, which can be done by enclosing a stamp for descriptive circular and terms, to BROWN & CO.,

STANLEY IN AFRICA. Written chiefly by himself. The latest and best, and only anthentic and eatis-factory low priced volume published BEATS THE WORLD TO SELL. Has even 500 large octavo pages, 60 illustrations.

THE NEW WILSON Oscillating Shuttle SEWING MACHINE Is wonderful in its conception, unprece-

dented for doing a large range of sewing in textile fabrics and leather. Its motions are continuous, admitting of an extraordinary rate of speed, either by steam or foot power. Every motion of the treadle makes styliches, thus producing about one-third more work in a day than other Sewing Machines. It has no stop moknown Wilson Compound Feed on both sides of the needle. It has two-thirds less parts than any other first-class Sewing Machine. Its

arm is fully eight and one-half inches long and five and one-half inches high, and the whole Machine is very compactly and scientifically constructed in proportions, elegance, design and appearance. Its simple, powerful and perfect mechanism places it as far in advance of all other Sewing Machines as the telephone is superior to the tin speaking tube. The WILSON MENDING ATTACHMENT, for repairing all kinds of textile fabrics WITHOUT PATCHING, furnished FREE with all WILSON SEWING MACHINES. Prices furnished with freight charges WILSON SEWING MACHINES. Prices furnished with freight charges prepaid, and machines furnished on trial to responsible parties, to be used with steam-power, in places where we have no agents. Send for illustrated Catalogue and Price List, No. 230.
